---

Dear

Welcome to BA(Hons) Game Art with Integrated Foundation Year at Falmouth.

We're getting in touch with some important information about your course as you prepare to join us. At the end of this letter, you will also find information about how you can make sure your skills and knowledge are of a standard whereby you will be able to hit the ground running from day one.

At the back of this letter there is also a list of equipment that you should bring with you, as well as any other costs that you might incur throughout your course.

Your academic experience will be predominantly in person with some courses using some digital resources to support your learning. To engage in the digital learning activity, although you will be able to access IT suites on campus, you may find it beneficial to have a laptop to access the platforms and tools we use. You will be provided with free access to the Microsoft Office suite, (including Word, Excel and PowerPoint) while you study at Falmouth.

### IFY - Pre-Course preparation

We would like you to keep a **Summer Journal** – this could take the form of a sketchbook of course but sketching isn't the only way you could develop a journal over the summer. You could buy a hardback journal, or re-purpose an old book or hand-make and stitch one together? You might consider sticking in newspaper cuttings, tickets, stickers, receipts, and other material to capture news and events. You could record visits to galleries or museums, draw from graphic novels, Film/TV shows, games, fashion, or other creative practices that inspires you. You might work on types of patterns, rubbing of textures, photographs, collages, imagine monsters and concept characters or explore bold *posca pen* designs? You might focus on a specific thing – drawings of people, typography, maps, costume, logos, observed locations, natural history or fantasy characters and places– **it's up to you.**

This is an opportunity to show us what you like to do and for you to capture your own creative interests and ideas and to then be able to share these with us when you arrive. We're look forward to seeing what makes you tick.

**Additional Note:** You might also consider starting a Creative *Instagram* feed or *tumblr* blog. It's also a good idea to perhaps start collecting creative inspiration on *pinterest* boards.

- You can see the IFY Instagram feed here as an example *@falmouthify*

### For Progression into BA Game Art (& Advised for IFY students on this route.)

#### Essential

At this stage many students want to know what we'd recommend they do to be properly prepared for the course in September. The primary tool we will be using for game-making in the first term is **Unity**. **Regardless of which route you are on in the course, you should [download](#) and begin to familiarise yourself with this software as soon as you can.** It's free and the tutorials are located at [unity3d.com/learn/tutorials/modules](https://unity3d.com/learn/tutorials/modules)

We'll be expecting students to have undertaken several of the beginner level Unity tutorials, in order to hit the ground running with the software in September. The more familiar you are with this software, the easier you will find the course. Developing and keeping up to date with the software is something we never stop expecting students to do.

In addition, you should also download Unreal 5 (UE5) - <https://www.unrealengine.com/enUS/download> We will be using UE5 in some of the Game Art modules, we would expect you to familiarise yourself with the Interface and some of the basic tasks in the Engine using a tutorial like the following - <https://youtu.be/gQmiqmxJMtA>

We will go through additional software you will need for the course when you start University.

Also, it would be beneficial to download the free trial of Autodesk Maya and work through its tutorials.

Global supply chain issues are having an impact on the prices of computers, which means you don't get as much for your money now than would usually be the case. However, you will have access to machines with a very high specification in our studios, where you'll be expected to do most of your work.

You will be provided with free access to the Microsoft Office suite, (including Word, Excel and PowerPoint) while you study at Falmouth.

### Headset with Microphone

You will need a headset with a microphone for some classes. We recommend purchasing a highquality headset for your comfort. Manufacturers such as *Sennheiser*, *Razer*, *HyperX* and *Corsair* are rated highly by our current students. These can cost between £30 - £150.

### Webcam

You will need a webcam in some teaching. Manufacturers such as *Logitech*, *Microsoft*, and *Razer* are rated highly by our current students. These can cost between £25 - £100.

### Internet Access

It is important that you secure sufficient access to the Internet as some materials are made available to you through our virtual learning environment. We recommend a fibre broadband connection if available, but a minimum of at least 5Mbps will be suitable for livestreaming content.
